

STAINLESS STEEL IMPORTED MESH SPECIFICATIONS.

Please see below the stainless steel welded wire mesh type AISI 304 (18/8 nickel chrome content) that we currently import.

All mesh sizes are measured as pitch (centre of wire to centre of wire) and all items must be supplied complete with cut flush edges all round.

All products must be clean from excess oil and grease be supplied flat and square with strong weld joints throughout.

All prices must be CIF to Felixstowe or Southampton ports.

To be considered as a supplier we would require full sized samples of the panels and 10 mtrs of items in roll form.

Rolls:

<u>Quantity</u>	<u>Mesh Size</u>	<u>Wire Diameter</u>	<u>Width</u>	<u>Length</u>
100	1" x 1"	2.50 mm	48"	96"
400	1" x 1"	3.00 mm	48"	96"
100	2" x 2"	2.50 mm	48"	96"
400	2" x 2"	3.00 mm	48"	96"

Panels:

<u>Quantity</u>	<u>Mesh Size</u>	<u>Wire Diameter</u>	<u>Width</u>	<u>Length</u>
100	1" x 1"	2.50 mm	48"	96"
400	1" x 1"	3.00 mm	48"	96"
100	2" x 2"	2.50 mm	48"	96"
400	2" x 2"	3.00 mm	48"	96"
100	3" x ½"	3.00 mm	48"	96"
100	3" x ½"	2.50 mm	48"	96"

All roll items are to be wrapped in tar paper and supplied in wooden crates.

All panel items are to be packed onto wooden pallets (100 per pallet) and wrapped in plastic wrap/sheeting.
